DESCRIPTION OF DUTIES/ESSENTIAL FUNCTIONS

Supervises and monitors the work of Staff Epidemiologist, GIS Analysts, and Surveillance Investigators – Epidemiologist in disease control and intervention programs. Implements work priorities and evaluate outcomes in line with program goals. Reports to the Epidemiologist Manager regarding overall work progress and needs of field programs.

CORE FUNCTIONS

- Supervises monitors and reviews investigative procedures, strategies and data analyses of staff subordinates in disease intervention activities, special projects and programs. Audits and ensures compliance with established protocols and quality assurance.
- Develops strategies for implementing active surveillance of disease clusters in the City of Houston and analyzes morbidity data for trends.
- Develops procedures and algorithms for the early detection of various disease incidents from expected norms.
- Coordinates the epidemiology teams and responses to potential and/or actual emergency public health events and is available twenty-four hours a day, seven days a week.
- Provides rapid communications with key personnel and organizations in preparation for potential large-scale public health threats.
- Participates in the recruitment and hiring of subordinates. Provides training and professional development and evaluates the performance of subordinates.
- Participates in grant/research writing and/or other projects to procure supplemental funding for state-of-the-art surveillance instruments and technologies.
- Prepares reports, presentations, and articles for scientific and non-scientific journals on disease investigations and preparedness for nuclear, biologic and chemical threats.
- Performs other duties as requested by the Epidemiologist Manager or the Bureau Chief of Epidemiology.

WORKING CONDITIONS

The position is physically comfortable, the individual has discretion about walking, standing, etc.

MINIMUM EDUCATIONAL REQUIREMENTS

Requires a Master's degree in Epidemiology or Public Health with emphasis in Epidemiology or related biological, medical or public health fields.

MINIMUM EXPERIENCE REQUIREMENTS

Six (6) years of professional experience in epidemiology or public health after completion of the required Master's degree are required, with two of the years in a supervisory or lead role. Advanced degrees, such as PhD in Public Health with emphasis in Epidemiology or related fields, Dr. of P.H., DVM, MD or equivalent, will substitute for two years of the experience requirement.

MINIMUM LICENSE REQUIREMENTS

None

PREFERENCES

None
